

# Well-Paying and Exciting Cybersecurity Careers for All Students

**(FREE FOOD!)**

*Come find out about Pathways to Cybersecurity Careers for GW students across  
Arts, Humanities, Social Sciences, Science & Engineering*

*Join us: 1.30pm Friday November 3*

---

## Event Details:

- **1.30pm SEH-1270:** Registration & snacks
- **2pm SEH-1270:** Hear about opportunities from experts and how you can start in Cybersecurity
- **Invited Experts:** *Joseph Mathews*, Superintendent, Information Technology Division Naval Research Laboratory; *Brian Schmanske* (DSc '03, Senior Intelligence Service (ret), Central Intelligence Agency); GW Cybersecurity faculty

## Who might be interested:

- **Are you a CCAS/ESIA student** in the humanities and social sciences not sure about whether cybersecurity is an option?
    - Learn how to get a Master's in Cybersecurity through a bridge program designed for students like you  
(The bridge can also lead to other programs - you can decide)
  - **Are you a science/engineering student** not having taken a single computer science course?
    - Learn how to get into a Master's in Cybersecurity program
  - **Are you a computer science student** interested in learning more about how you can specialize in cybersecurity?
    - Learn about how you can advance your credentials as an undergraduate and later, into a Master's in Cybersecurity
- 

To indicate interest, please take 2 minutes  
to fill out this google form:
